Mestni trg 23, 1000 Ljubljana
Lecture Hall Jože Pučnik (P1)

ADDITIONAL INFORMATION:
Karierni.center@nova-uni.si
T: 01 251 44 83

We invite you to a **guest lecture by Professor Dr. Zoran Pavlović** from the Faculty of Law for Commerce and Judiciary in Novi Sad, University Business Academy in Novi Sad, Republic of Serbia, which will take place on **Thursday, February 13, 2025 at 4 p.m.** in the Lecture Hall Jože Pučnik (P1).

The presentation will cover presenting the issue of violence against children in the digital world, highlighting relevant international and domestic laws, and include two educational films to kickstart a discussion and conclude with listeners drawing conclusions.

Despite extensive legislation, digital violence against children persists. Even with detailed European laws and clear criminal provisions, the number of victims remains high, underscoring the need for focused prevention. The internet allows children to connect and learn but also exposes them to risks like online violence, data misuse, and inappropriate content. Protecting children requires trained professionals who can prevent and address crimes in the digital realm. In Serbia, numerous initiatives by government, educational bodies, and NGOs aim to secure children's safety online, focusing on preventing abuse and enhancing awareness among professionals, parents, teachers, and children about digital security.

APPLICATIONS are being accepted [HERE](#) until **February 11, 2025**.

You are cordially invited!
