Content (Syllabus outline):

The student continues with the preparation of the doctoral dissertation, whereby the individual scientific research work directed by the mentor is manifested in the form of a final dissertation.

Before the defense, the student publishes, or has accepted for publication, at least one original scientific article with first authorship from the content of the doctorate in a publication that is considered by the valid habilitation criteria of the New University for

v publikaciji, ki jo veljavna habilitacijska merila Nove univerze upoštevajo za izvolitev v naziv visokošolskega učitelja.

Če prvo avtorstvo ni mogoče (npr. pri mednarodnih raziskavah ali iz drugih opravičljivih razlogov), mora mentor dati izjavo, da je prispevek doktoranda v članku pomemben.

Pri vseh objavah, povezanih z raziskovalnim delom v okviru doktorskega študija, mora biti navedena afilijacija »Nova univerza«. To velja tudi v primeru, ko so doktorand, mentor ali somentor zaposleni v drugi organizaciji.

Po objavljenem znanstvenem članku in, ko je doktorska disertacija s strani mentorja oz. Komisije za oceno doktorske disertacije pozitivno ocenjena in sprejeta, določi Senat NU, Evro-PF Komisijo za zagovor doktorske disertacije, ki jo praviloma sestavljajo člani Komisije za oceno doktorske disertacije.

In all publications related to research work within the framework of doctoral studies, the affiliation "New University" must be indicated. This also applies if the doctoral student, supervisor or co-supervisor is employed in another organization.

When the scientific article is published and when the doctoral dissertation is positively evaluated and accepted by the mentor and committee for the evaluation of the doctoral dissertation, the Senate NU, Evro-FL, appoints the thesis Committee for the defence of the doctoral dissertation, which usually consists of members of the Committee for the evaluation of the doctoral dissertation.
